

SAFETY DATA SHEET

CROWN TURBOMAX TX-7 SAE 15W-40

Section 1. Identification

Material name: CROWN TURBOMAX TX-7 SAE 15W-40

Product Code 298044

SDS no. SDS298044-1

Relevant identified uses of the substance or mixture and uses advised against

**Use of the substance/
mixture** Automotive Engine lubricant.
For specific application advice see appropriate Technical Data Sheet or consult our company representative .

**Manufacturer
Supplier** Technolube L.L.C
P.O.BOX: 116636, Techno Park
Dubai, United Arab Emirates
www.technolubeuae.com
Tel: +971 4 801 8444
Fax: +971 4 886 7014

**Emergency Telephone
Number** Technical Services Department
Telephone: +966 12 215 7000

Section 2. Hazard(s) identification

**Classification of the
substance or mixture** Not classified

GHS label elements:

Hazard Pictograms: No hazard pictogram is used

Signal word: No signal word is used

Hazard statement: Not applicable

Precautionary statement:

Prevention: Not applicable

Response: Not applicable

Storage: Not applicable

Disposal: Not applicable

**Other hazards which do not
result in classification** Not applicable

SAFETY DATA SHEET

Section 3. Composition and ingredient information

Substance/ mixture Mixture

Components	CAS No.	Percent
Hydrotreated heavy paraffinic	64742-54-7	80-90%
Performance Additives	Mixture	<20%

Section 4. First aid measures

Description of necessary first aid measures

Eye contact	In case of contact, immediately flush eyes with plenty of water for at least 15 minutes. Eyelids should be held away from the eyeball to ensure thorough rinsing. Check and remove any contact lenses. Get medical attention
Skin contact	No specific first aid measures are required. As a precaution, remove clothing and shoes if contaminated. To remove the material from skin, use soap and water.
Inhalation	If inhaled, remove the person to fresh air. Get medical attention if symptoms occur.
Ingestion	Do not induce vomiting. As a precaution, get medical advice.
Symptoms caused by exposure	Not available
Special Treatment	No special treatment

Section 5. Fire-fighting measures

Extinguishing media

Suitable extinguishing media	In case of fire, use Foams, dry chemicals, CO ₂ , nylons and powders
unsuitable extinguishing media	Do not use water
Protection Equipment	Heat resistant suit and gloves, Self-contained breathing apparatus
Special Risks	None
Special Measures	Not required
Combustion Products	CO ₂ , H ₂ O, CO (in defect of air), nitrogen, sulfur and phosphorus oxides

Section 6. Accidental release measure

Precautions for the Environment	Hazard of physical fouling to coasts, soils, etc. due to low solubility and high viscosity of the oils. Avoid the material entering water intakes
Clean-up Method	Treat as an accidental oil spill or leak; avoid dispersion of the material with mechanical barriers. Remove with physical or chemical treatment
Personal Precautions	Avoid prolonged contact with contaminated clothes or with the product
Personal Protection	Gloves and goggles or face shield

SAFETY DATA SHEET

Section 7. Handling and storage

Precautions for safe handling

General Precautions Avoid prolonged contact and inhalation of mists and vapors
Specific conditions Safety goggles and gloves should be used

Precautions for safe storage

Storage condition Containers properly labeled and sealed, placed in cool and
Incompatible materials Strong oxidants
Dangerous practices Not available

Section 8. Exposure control/ Personal protection

Control parameters:

Exposure Level Not available
Inhalation Low vapor pressures: The product is slightly volatile at room temperature and does not present special risks. In presence of heated oils, wear protective masks to avoid vapor inhalation
Skin Gloves
Eye Safety goggles 
Other Showers and eye-washers in the working area
Specific Hygiene measure Good work practices to minimize exposure and adoption of good Personal hygiene measures avoid the presence of skin rash and oil acne
Exposure Level TLV (typical base oil) = 0.016 PPM at 20°C (saturated vapor Concentration); TLV/TWA (ACGIH) = 5mg/m³ (oil mist); TLV/STEL (ACGIH) = 10mg/m³ (oil mist)

Section 9. Physical and chemical properties

Information on basic physical and chemical properties:

Appearance:

Physical state: Liquid
Color: Brownish Oil
Specific Gravity (at 15°C): 0.8754(typical)
Flash point: 234 °C
Explosive Properties: Not available
Oxidizing Properties: Not available
Water Solubility: Insoluble (100 PPM max. H₂O)
Solubility: Organic solvents
Vapor Density: Not available
Vapor Pressure: Not available
Viscosity at 100°C: 14.80 cSt (typical)
Pour Point: -27 °C (typical)
Boiling Point: Not available

Section 10. Stability and reactivity

SAFETY DATA SHEET

Reactivity	Stable under recommended transport storage conditions
Chemical stability	Stable under normal temperature pressures
Polymerization Risk	Not available
Materials to Avoid	Strong oxidants react with oils and organic materials
Hazardous Decomposition products	Not available
Condition to Avoid	Exposure to open flames

Section 11. Toxicological information

Routes of Exposure	Contact with skin, eyes and inhalation. Ingestion is not frequent.
Acute and chronic Effects	No malignant acute effects are known. Chronic effects due to repeated exposures are irritation, dermatitis and acne
Carcinogenicity	Not available
Reproductive Toxicity	No evidences
Medical Conditions which increase Hazard to Exposure	Respiratory tract deficiencies and dermatological problems

Section 12. Ecological information

Pollutant Potential:

Persistence and Degradability the material is oily and viscous and floats on water. It presents a high physical fouling potential, mainly in sea-spills; by contact, destroys small aquatic organisms and makes living difficult for upper organisms, not allowing the sunlight to reach underlying marine ecosystems, affecting its normal development.

Mobility/Bioaccumulative Potential it does not present bioaccumulative problems in living organisms or incidence in the tropic food chain, although it may cause long-term adverse effects in the aquatic environment, due to its high physical fouling potential

Eco toxicological Effect: Dangerous for aquatic life in high concentrations (spills).

Section 13. Disposal consideration

Disposal Methods (surplus)	Recycling and recovery of base oils when possible
Disposal (waste)	Only in specific prepared and controlled areas. Avoid releasing oils to sewers because they can destroy water treatment plant Microorganisms. Do not attempt to clean containers since residue is difficult to remove; dispose in a safe way.
Handling (waste)	Labeled and sealed containers. Avoid direct contact with waste oils.

Section 14. Transport information

Special Precautions Stable at room temperature and during transport. Store in cool well ventilated

SAFETY DATA SHEET

UN Number	areas. Not regulated
Road (ADR)/ Rail (RID) /River (ADNR)	Not regulated
Airline (IATA-ACAO)	Not regulated
Marine (IMO-IMDG)	Not regulated
Special precautions for user	Not available

Section 15. Regulatory information

Regulation	CERCLA/SARA - Section 302 Extremely Hazardous Substances and TPQs (in pounds) This material does not contain any chemicals subject to the reporting requirements of SARA 302 and 40 CFR 372.
CERCLA/SARA - Section 311/312 (Title III Hazard Categories)	Acute Health: No Chronic Health: No Fire Hazard: No Pressure Hazard: No Reactive Hazard: No
CERCLA/SARA - Section 313 and 40 CFR 372	This material does not contain any chemicals subject to the reporting requirements of SARA 313 and 40 CFR 372
EPA (CERCLA) Reportable Quantity (in pounds)	This material does not contain any chemicals with CERCLA Reportable Quantities
California Proposition 65	This material does not contain any chemicals which are known to the State of California to cause cancer, birth defects or other reproductive harm at concentrations that trigger the warning requirements of California Proposition 65
Canadian	This product has been classified in accordance with the hazard criteria of the Controlled Products Regulations (CPR) and the MSDS contains all the information required by the Regulations. WHMIS Hazard Class: None
National Chemical Inventories	All components are either listed on the US TSCA Inventory, or are not regulated under TSCA. All components are either on the DSL, or are exempt from DSL listing requirements
U.S. Export Control Classification Number	EAR99

Section 16. Other information
