

ATF TYPE A

Automatic Transmission Fluid Type A is multi-purpose transmission fluid, designed for use in automatic gearboxes, where GM type "A" transmission exists. This oil may also be used in many power shift transmission. Can also be used as industrial torque converters and manual transmission where lower viscosity fluids are required.

BENEFITS

- Good thermal and oxidation stability.
- Good low temperature fluidity.
- Good anti-rust -corrosion properties.

PERFORMANCE LEVEL

Meets:

- GM TYPE A

APPLICATIONS

ATF TYPE A is formulated to meet the requirements for passenger car and light truck automatic transmissions, power steering and other hydraulic systems

PRODUCT CHARACTERISTICS

PROPERTIES	UNITS	VALUE	TEST METHOD
Specific Gravity @ 15 °C	-	0.8382	ASTM D-4052
Viscosity @ 40 °C	mm ² /s	29.3	ASTM D-445
Viscosity @ 100 °C	mm ² /s	6.46	ASTM D-445
Flash Point, COC	°C	183	ASTM D-92
Color	-	Red	Visual
Pour Point	°C	-45	ASTM D-97
Product Code		312042	-
