

SAFETY DATA SHEET

CROWN TURBOMAX TX-7 SAE 20W-50 API CH-4

Section 1. Identification	
Material name:	CROWN TURBOMAX TX-7 SAE 20W-50
Product Code	385044
SDS no.	SDS 385044-1
Relevant identified uses of t	he substance or mixture and uses advised against
Use of the substance/	Automative Engine lubricant.
mixture	For specific application advice see appropriate Technical Data Sheet or consult
	our company representative .
Manufacturer	Technolube L.L.C
Supplier	P.O.BOX: 116636, Techno Park
	Dubai, United Arab Emirates
	www.technolubeuae.com
	Tel: +971 4 801 8444
	Fax: +971 4 886 7014
Emergency Telephone	Technical Services Department
Number	Telephone: +966 12 215 7000

Section 2. Hazard(s) identification

Classification of the substance or mixture	Not classified
GHS label elements:	
Hazard Pictograms:	No hazard pictogram is used
Signal word:	No signal word is used
Hazard statement:	Not applicable
Precautionary statement:	
Prevention:	Not applicable
Response:	Not applicable
Storage:	Not applicable
Disposal:	Not applicable
Other hazards which do not result in classification	Not applicable

Section 3. Composition and ingredient information

Substance	/ mixture	Mixture

Components	CAS No.	Percent
Hydrotreated heavy paraffinic	64742-54-7	80-90%
Performance Additives	Mixture	<20%

Section 4. First aid measures		
Description of necessary first	st aid measures	
Eye contact	In case of contact, immediately flush eyes with plenty of water for at least 15 minutes. Eyelids should be held away from the eyeball to ensure through rinsing. Check and remove any contact lenses. Get medical attention	
Skin contact	No specific first aid measures are required. As a precaution, remove clothing and shoes if contaminated. To remove the material from skin, use soap and water.	
Inhalation	If inhaled, remove the person to fresh air. Get medical attention if symptoms occur.	
Ingestion	Do not induce vomiting. As a precaution, get medical advice.	
Symptoms caused by exposure	Not available	
Special Treatment	No special treatment	
Section 5. Fire-fighting measures		
Extinguishing media		
Suitable extinguishing medi	a In case of fire, use Foams, dry chemicals, CO2, nylons and powders	
unsuitable extinguishing media	Do not use water	
Protection Equipment	Heat resistant suit and gloves, Self-contained breathing apparatus	
Special Risks	None	
Special Measures	Not required	
Combustion Products	CO2, H ₂ O, CO (in defect of air), nitrogen, sulfur and phosphorus oxides	
Section 6. Accidenta	al release measure	
Precautions for the	Hazard of physical fouling to coasts, soils, etc. due to low solubility and high	
Environment	viscosity of the oils. Avoid the material entering water intakes	
Clean-up Method	Treat as an accidental oil spill or leak; avoid dispersion of the material with	
	mechanical barriers. Remove with physical or chemical treatment	
Personal Precautions	Avoid prolonged contact with contaminated clothes or with the product	
Personal Protection	Gloves and goggles or face shield	

SAFETY DATA SHEET

Section 7. Handling and storage

Precautions for safe	
handling	
General Precautions	Avoid prolonged contact and inhalation of mists and vapors
Specific conditions	Safety goggles and gloves should be used

Precautions for safe storage

Storage condition	Containers properly labeled and sealed, placed in cool and
Incompatible materials	Strong oxidants
Dangerous practices	Not available

Section 8. Exposure control/ Personal protection

Control parameters:	
Exposure Level	Not available
Inhalation	Low vapor pressures: The product is slightly volatile at room temperature and does not present special risks. In presence of heated oils, wear protective masks to avoid vapor inhalation
Skin	Gloves
Еуе	Safety goggles
Other	Showers and eye-washers in the working area
Specific Hygiene measure	Good work practices to minimize exposure and adoption of good Personal
	hygiene measures avoid the presence of skin rash and oil acne
Exposure Level	TLV (typical base oil) = 0.016 PPM at 20°C (saturated vapor Concentration);
	TLV/TWA (ACGIH) = 5mg/m3 (oil mist); TLV/STEL (ACGIH) = 10mg/m3 (oil
	mist)

Section 9. Physical and chemical properties

Information on basic physical and chemical properties:

Appearance:	
Physical state:	Liquid
Color:	Brownish Oil
Specific Gravity (at 15°C):	0.8808(typical)
Flash point:	258 ºC
Explosive Properties:	Not available
Oxidizing Properties:	Not available
Water Solubility:	Insoluble (100 PPM max. H2O)
Solubility:	Organic solvents
Vapor Density:	Not available
Vapor Pressure:	Not available
Viscosity at 100ºC:	19.39 cSt (typical)
Pour Point:	-30 ºC (typical)
Boiling Point:	Not available

SAFETY DATA SHEET

Section 10. Stability and reactivity

Reactivity	Stable under recommended transport storage conditions
Chemical stability	Stable under normal temperature pressures
Polymerization Risk	Not available
Materials to Avoid	Strong oxidants react with oils and organic materials
Hazardous Decomposition products	Not available
Condition to Avoid	Exposure to open flames

Section 11. Toxicological information

Routes of Exposure	Contact with skin, eyes and inhalation. Ingestion is not frequent.
Acute and chronic Effects	No malignant acute effects are known. Chronic effects due to repeated exposures are irritation, dermatitis and acne
Carcinogenicity	Not available
Reproductive Toxicity	No evidences
Medical Conditions which increase Hazard to Exposure	Respiratory tract deficiencies and dermatological problems

Section 12. Ecological information

Pollutant Potential:	
Persistence and Degradability	the material is oily and viscous and floats on water. It presents a high physical fouling potential, mainly in sea-spills; by contact, destroys small aquatic organisms and makes living difficult for upper organisms, not allowing the sunlight to reach underlying marine ecosystems, affecting its normal development.
Mobility/Bioaccumulative Potential	it does not present bioaccumulative problems in living organisms or incidence in the tropic food chain, although it may cause long-term adverse effects in the aquatic environment, due to its high physical fouling potential
Eco toxicological Effect:	Dangerous for aquatic life in high concentrations (spills).

Section 13. Disposal consideration

Disposal Methods (surplus)	Recycling and recovery of base oils when possible
Disposal (waste)	Only in specific prepared and controlled areas. Avoid releasing oils to sewers because they can destroy water treatment plant Microorganisms. Do not attempt to clean containers since residue is difficult to remove; dispose in a safe way.
Handling (waste)	Labeled and sealed containers. Avoid direct contact with waste oils.

Section 14. Transport information

Special Precautions	Stable at room temperature and during transport. Store in cool well ventilated areas.
UN Number	Not regulated
Road (ADR)/ Rail (RID) /River (ADNR)	Not regulated
Airline (IATA-ACAO)	Not regulated
Marine (IMO-IMDG)	Not regulated
Special precautions for user	Not available

Section 15. Regulatory information					
Regulation	ERCLA/SARA - Section 302 Extremely Hazardous Substances and TPQs (in pounds This material does not contain any chemicals subject to the reporting requirements of SARA 302 and 40 CFR 372.				
CERCLA/SARA - Section 311/312 (Title III Hazard	Acute Health:	No			
	Chronic Health:	No			
Categories)	Fire Hazard:	No			
	Pressure Hazard:	No			
	Reactive Hazard:	No			
CERCLA/SARA - Section 313	This material does no	ot contain any chemicals subject to the reporting			
and 40 CFR 372	requirements of SAR	A 313 and 40 CFR 372			
EPA (CERCLA) Reportable	This material does not contain any chemicals with CERCLA Reportable				
Quantity (in pounds)	Quantities				
California Proposition 65	This material does not contain any chemicals which are known to the State of California to cause cancer, birth defects or other reproductive harm at concentrations that trigger the warning requirements of California Proposition 65				
Canadian	This product has been classified in accordance with the hazard criteria of the Controlled Products Regulations (CPR) and the MSDS contains all the information required by the Regulations. WHMIS Hazard Class: None				
National Chemical	All components are either listed on the US TSCA Inventory, or are not				
Inventories	•	A. All components are either on the DSL, or are exempt			
U.S. Export Control Classification Number	EAR99				

Section 16. Other information

History:				
Date of Issue	23/7/2020			
Revision Version	Version 1.0			
Status:	Final
