

SUPER COOLANT 500

Section 1. Identification	ation		
Material name:	SUPER COOLANT 500		
Product Code	4390		
SDS no.	SDS 4390-1 AU		
Relevant identified uses of the substance or mixture and uses advised against			
Use of the substance/	Liquid cooled internal combustion engines		
mixture	For specific application advice see appropriate Technical Data Sheet or consult		
	our company representative		
Manufacturer	Petromin Corporation		
Supplier	P.O.BOX: 1432, Jeddah 21431		
	Prince Sultan Road, Ayah Mall		
	www.petromin.com		
	Tel: +966 12 60 8300		
	Fax: +966 12 608 2545		
Australian	International Lubricant Distributors Pty		
Supplier	Ltd Unit 11, 100 Hay Street, Subiaco, 6008, WA ABN 79 139 276 887

Not classified as Dangerous Goods according to the Australian Code for the Transport of Dangerous Goods by Road and Rail. No hazard pictogram is used No signal word is used No known significant effects or critical hazards Not applicable Not applicable		

Section 3. Composition and ingredient information

Mixture

Substance/ mixture

Components	CAS No.	Percent
Monoetylenglykol	107-21-1	50%
Distilled Water	-	49%
Performance Additives	Mixture	<1%

Section 4. First aid measures		
Description of necessary f	irst aid measures	
Eye contact	In case of contact, immediately flush eyes with plenty of water for at least 15 minutes. Eyelids should be held away from the eyeball to ensure through rinsing. Check and remove any contact lenses. Get medical attention	
Skin contact	No specific first aid measures are required. As a precaution, remove clothing and shoes if contaminated. To remove the material from skin, use soap and water.	
Inhalation	If inhaled, remove the person to fresh air. Get medical attention if symptoms	
Inegstion	Do not induce vomiting. As a precaution, get medical advice.	
Symptoms caused by exposure	Not available	
Special Treatment	No special treatment	

Section 5.	Fire-fighting measures
------------	------------------------

Suitable extinguishing media	In case of fire, use Foams, dry chemicals, CO ₂ , nylons and powders
unsuitable extinguishing media	Do not use water
Protection Equipment	Heat resistant suit and gloves, Self-contained breathing apparatus
Special Risks	None
Special Measures	Not required
Combustion Products	CO2, H ₂ O, CO (in defect of air), nitrogen, sulfur and phosphorus oxides

Section 6. Accidental release measure

Precautions for the	Hazard of physical fouling to coasts, soils, etc. due to low solubility and high	
Environment	viscosity of the oils. Avoid the material entering water intakes	
Clean-up Method	Treat as an accidental oil spill or leak; avoid dispersion of the material with	
	mechanical barriers. Remove with physical or chemical treatment	
Personal Precautions	Avoid prolonged contact with contaminated clothes or with the product	
Personal Protection	Gloves and goggles or face shield	

Section 7. Handlin	g and storage
Precautions for safe handling & storage	Take precautions against static electricity discharges. Use proper grounding procedures. For information on the design of the storeroom, reference should be made to Australian Standard AS1940 - The storage and handling of flammable and combustible liquids. Reference should also be made to all applicable local and national regulations. Classified as a Class C2 (COMBUSTIBLE LIQUID) for the purpose of storage and handling, in accordance with the requirements of AS1940. This product should be stored and used in a well- ventilated area away from naked flames, sparks and other sources of ignition.
Dangerous practices	Not available
Section 8. Exposur	re control/ Personal protection
Exposure Standard	No exposure standards have been established for this material, however, the TWA National Occupational Health And Safety Commission (NOHSC) exposure standards for oil mist is 5 mg/m ³ .TWA (Time Weighted Average): The average airborne concentration of a particular substance when calculated over a normal eight-hour working day, for a five-day week.
Respiratory Protection	If engineering controls are not effective in controlling airborne exposure then an approved respirator with a replaceable vapour/mist filter should be used. Reference should be made to Australian/New Zealand Standards AS/NZS 1715, Selection, Use and Maintenance of Respiratory Protective Devices; and AS/NZS 1716, Respiratory Protective Devices, in order to make any necessary changes for individual circumstances.
Eye Protection	Safety glasses with side shields, goggles or full-face shield as appropriate recommended. Final choice of appropriate eye/face protection will vary according to individual circumstances i.e. methods of handling or engineering controls and according to risk assessments undertaken. Eye protection should conform with Australian/New Zealand Standard AS/NZS 1337 - Eye Protectors for Industrial Applications.
Hand Protection	Wear gloves of impervious material. Final choice of appropriate gloves will vary according to individual circumstances i.e. methods of handling or according to risk assessments undertaken. Reference should be made to AS/NZS2161.1: Occupational protective gloves - Selection, use and maintenance.
Body Protection	Suitable protective workwear, e.g. cotton overalls buttoned at neck and wrist is recommended. Chemical resistant apron is recommended where large quantities are handled. Industrial clothing should conform to the specifications detailed in AS/NZS 2919: Industrial clothing.

Section 9. Physical and chemical properties

Information on basic physical and chemical properties

Appearance:	
Physical state:	Liquid
Color:	Green
Specific Gravity (at 15°C):	1.065 (typical)
Flash point:	Not available
Explosive Properties:	Not available
Oxidizing Properties:	Not available
Water Solubility:	Insoluble (100 PPM max. H ₂ O)
Solubility:	Organic solvents
Vapor Density:	Not available
Vapor Pressure:	Not available
Viscosity at 100°C:	Not available
рН	8.29
Freezing Point ^o C:	-37 ºC
Equilibrium Boiling Point ^o C	: 107ºC

Section 10. Stability and reactivity

Reactivity	Stable under recommended transport storage conditions
Chemical stability	The product is stable
Polymerization Risk	Not available
Materials to Avoid	Strong oxidants react with oils and organic materials
Hazardous Decomposition products	Not available
Condition to Avoid	Exposure to open flames

Section 11. Toxicological information

Routes of Exposure Acute and chronic Effects	Contact with skin, eyes and inhalation. Ingestion is not frequent. No malignant acute effects are known. Chronic effects due to repeated exposures are irritation, dermatitis and acne
Carcinogenicity	Not available
Reproductive Toxicity Medical Conditions which increase Hazard to Exposure	No evidences Respiratory tract deficiencies and dermatological problems

Section 12. Ecological information

Pollutant Potential:

Persistence and Degradability	the material is oily and viscous and floats on water. It presents a high physical fouling potential, mainly in sea-spills; by contact, destroys small acuatic organisms and makes living difficult for upper organisms, not allowing the		
Mobility/Bioaccumulative Potential	it does not present bioaccumulative problems in living organisms or incidence in the tropic food chain, although it may cause long-term adverse effects in the acuatic environment, due to its high physical fouling potential		
Eco toxicological Effect:	Dangerous for acuatic life in high concentrations (spills).		
Section 13. Dispose	al consideration		
Disposal Methods (surplus	, Recycling and recovery of base oils when possible		
Disposal (waste)	Only in specific prepared and controlled areas. Avoid releasing oils to sewers because they can destroy water treatment plant Microorganisms. Do not attempt to clean containers since residue is difficult to remove; dispose in a safe way.		
Handling (waste)	Labeled and sealed containers. Avoid direct contact with waste oils.		
Section 14. Transpo	ort information		
Special Precautions	Stable at room temperature and during transport. Store in cool well ventilated areas.		
Transport Information	Not classified as Dangerous Goods according to the Australian Code for the Transport of Dangerous Goods by Road and Rail.		
UN Number	Not regulated		
Road (ADR)/ Rail (RID) /River (ADNR)	Not regulated		
Airline (IATA-ACAO)	Not regulated		
Marine (IMO-IMDG)	Not regulated		
Special precautions for user	Not available		

Section 15. Regulatory information

Regulatory Information	Not classified as Hazardous according to criteria of National Occupational Health & Safety Commission (NOHSC), Australia. Not classified as a Scheduled Poison according to the Standard for the Uniform Scheduling of Drugs and Poisons (SUSDP).	
Poisons Schedule	Not Scheduled	
Regulation	CERCLA/SARA - Section 302 Extremely Hazardous Substances and TPQs (in pounds):	
	This material does not co SARA 302 and 40 CFR 3	ontain any chemicals subject to the reporting requirements of 72.
CERCLA/SARA - Section	Acute Health:	Νο
311/312 (Title III Hazard	Chronic Health:	No
Categories)	Fire Hazard:	No
	Pressure Hazard:	No
	Reactive Hazard:	No
CERCLA/SARA - Section 313 and 40 CFR 372	3 This material does not contain any chemicals subject to the reporting requirements of SARA 313 and 40 CFR 372	
EPA (CERCLA) Reportable Quantity (in pounds)	This material does not contain any chemicals with CERCLA Reportable Quantities	
California Proposition 65	This material does not contain any chemicals which are known to the State of California to cause cancer, birth defects or other reproductive harm at concentrations that trigger the warning requirements of California Proposition 65	
Canadian	This product has been classified in accordance with the hazard criteria of the Controlled Products Regulations (CPR) and the MSDS contains all the information required by the Regulations. WHMIS Hazard Class: None	
National Chemical Inventories	All components are either listed on the US TSCA Inventory, or are not regulated under TSCA. All components are either on the DSL, or are exempt from DSL listing requirements	
U.S. Export Control Classification Number	EAR99	

Section 16. Other information

History:

Date of Issue Revision Version Status: Previous Issue Date	18/12/201 Version 1.0 Final	
Guide to Abbreviations	CAS	Chemical Abstracts Service
	ACGIH	American Conference of Governmental Industrial Hygienists
	CASRN	Chemical Abstracts Service Registry Number
	CEILING	Ceiling Limit (15 minutes)
	CERCLA	The Comprehensive Environmental Response, Compensation, and Liability Act
	EPA	Environmental Protection Agency
	IARC	International Agency for Research on Cancer
	LEL	Lower Explosive Limit
	NE	Not Established
	NFPA	National Fire Protection Association
	NTP	National Toxicology Program
	OSHA	Occupational Safety and Health Administration
	PEL	Permissible Exposure Limit (OSHA)
	SARA	Superfund Amendments and Reauthorization Act
	STEL	Short Term Exposure Limit (15 minutes)
	TLV	Threshold Limit Value (ACGIH)
	TWA	Time Weighted Average (8 hours)
	UEL	Upper Explosive Limit
	WHMIS	Worker Hazardous Materials Information System (Canada)
